JIET Group of Institutions

Project Proposal

Name Of Project:-

Quick Share

Objective/Aim:-

Building a simple, easy to use and pre configured faster file sharing application in a given geographical area.

Overview:-

The concept of a faster file sharing application for a dedicated geographical area such as classroom in education institution is to provide ease of access to end users in terms of independence from dedicated flash storages and providing instantaneous access to files. This will eliminate need of internet facility at homes or Hostel for students and other users. Transferring files would be a matter of few seconds.

Technology/Programming Languages/Databases Involved:-

Programming Languages: Java (J2SE)

Platform: Microsoft Windows

Name: Kunal Bohra
Branch: CSE
Year: IV
Semester: VII
Batch: A-3
